

Customer Advisory

Date: 20th March 2019

Dear Valued Customers

Subject: Saudi Arabia - License from Public Transport Authority is Compulsory

As per circular from Mawani, Saudi Port Authority stipulated in Article 26 that Shipping Lines are required to obtain a copy of Freight Forwarder's License issued by the Public Transport Authority (PTA) for shipment involved freight forwarders – as Consignee or Notify Party on Bill of Lading.

Our Saudi Arabia office will not release any shipments unless a validated license is presented.

For ensuring smooth process, please kindly coordinate for submission of copy of the license issued by Public Transport Authority to our Saudi Arabia office before cargo arrival. Failure to do so will result in customs penalties and delay at POD, on customers' account.

We look forward to your kind support and full compliance to the new Regulation. Please contact our local agencies if any assistance is required. You may also visit our website <https://www.emiratesline.com/> for more details.

Thank you.
