

Customer Advisory

Date: 23rd July 2025

Dear Valued Customers

Subject: As per SCMTR, HS code 6 or 8 digit is mandatory for all Inbound shipment to INDIA.

All inbound shipments to India must have the minimum 6 digit and Maximum 8-digit HS Code clearly indicated in the cargo manifest.

This requirement has been introduced by Indian custom authorities to ensure alignment of incoming cargo details with SCMTR system, facilitating more accuracy and efficient cargo clearance.

We request all Port of Loadings to ensure strict compliance with this requirement by manifesting correct HS code of minimum 6 or maximum 8-digit HS code in commodity Tab as well as BL Body tab to avoid potential delays or issues in filing the custom manifest for all Inbound cargo.

Thank you for your cooperation and continued support.
